

MIKE ALBERT

Industry Focus: Construction

Fleet Management built for the construction industry.

Managing a construction business means juggling countless moving parts—projects, crews, equipment, and deadlines. Your fleet is essential to it all. Every vehicle needs to be safe, reliable, and cost-effective. At Mike Albert Fleet Solutions, we've transformed construction fleet operations like yours into powerful tools for customer service and growth.

FLEET SOLUTIONS

Solutions that keep you building.

Our **Fleet Science**® approach to fleet management combines data-driven insights with decades of expertise to help you cut costs, improve safety, and keep your projects on schedule. Plus, these solutions will lower your total cost of ownership (TCO).

- ▶ **Fuel management that saves you money.** Fuel can account for up to two-thirds of your operating costs. Our fuel management solutions will help you take control by simplifying reporting, reducing fraud, and tracking usage in real time.
- ▶ **Telematics that power smarter decisions.** Our advanced, AI-driven telematics solutions, including Albert IQ® and those from our partner **Geotab**, will give you visibility into:
 - Vehicle health and utilization
 - Driver performance and safety
 - Fuel efficiency and route optimization
- ▶ **Upfitting solutions that your crew will love.** A well-planned upfit increases productivity and enhances safety. From ladder racks to storage solutions, we'll customize your vehicles to fit your exact needs. Our upfitting experts ensure every truck and van is optimized to make the hard work of construction a bit easier.

- ▶ **Maintenance programs that maximize uptime.** Keeping vehicles in top shape shouldn't slow you down. Our **Overdrive**™ fleet management software alerts drivers when service is due and connects them to pre-approved vendors—anywhere, anytime. In addition, our AI-driven predictive maintenance solutions will alert you to potential problems before they strand vehicles on the roadside.
- ▶ **Financing that works for you.** Preserve your credit lines and reduce out-of-pocket expenses with our flexible leasing and financing options. Need a vehicle fast? Our purchasing team can source and upfit the right truck or van to keep your projects moving and your company growing.

Partner with Mike Albert and reap these benefits:

- **Lower operating costs** through optimized fuel usage, proactive maintenance, and strategic leasing.
- **Improved safety and compliance** thanks to telematics (including video), driver training programs, and incentives.
- **Less administrative hassle** thanks to licensing, toll management, and registration renewals.

SUCCESS STORY

Big-D Construction accelerated fleet growth to meet increasing business demands.

By partnering with Mike Albert, Big-D Construction built a modern fleet designed to accommodate rapid demand growth despite a tight labor market. A vehicle acquisition plan took their fleet from 25 new vehicles per year to over 100, and a driver-friendly telematics program boosted morale while providing much-needed data to enhance efficiency and improve safety.
